Product Description

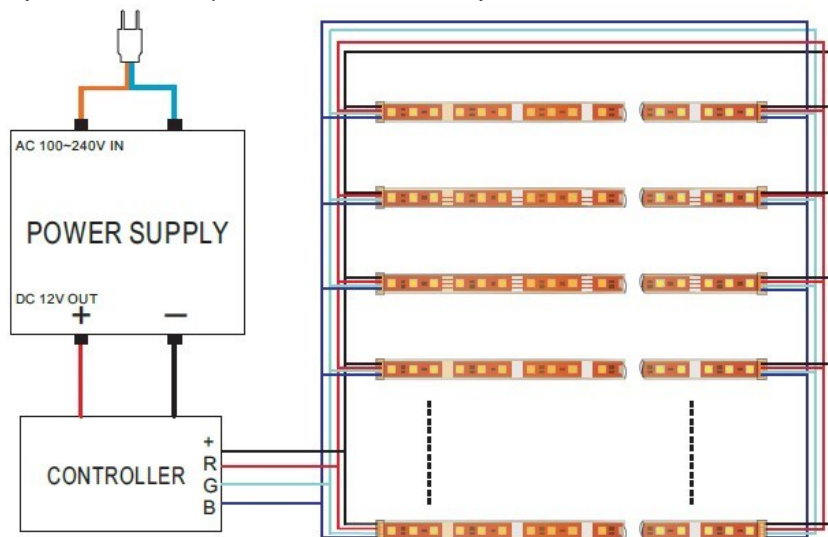

High brightness cold white 20000 kelvin 5050 60leds per meter non waterproof epistar chip led flexible strip light

This is a colorful RGB flexible light strip that is non waterproof and can be used in many places, but it can only be used indoors. there are 60leds per meter. The smd is made of high-brightness epistar chip, which can be guaranteed for 3 years without light decay.

We use the high-top double FPC board. The power supply is 12V, and the power of one meter can reach 12-14 watts. This product's characterized is able to be affixed to the place you want to light and decorate. Because it is flexible, it has a 3M back glue on the back, which is very convenient.

Our product is a group with 3 pcs led, that can be cut, and per 5 meter package in one roll with a moisture-proof aluminum foil bag. 100bags in one cartons .
