

USB Interface Rigid LED Strip Lights Germicidal Lamp UVC UVA 260-280nm Portable

Our Product Introduction

for more products please visit us on led-stripslights.com

Basic Information

- Place of Origin: China
- Brand Name: sunled
- Certification: CE Rohs
- Model Number: SL-UV1
- Minimum Order Quantity: 50pcs
- Price: usd
- Packaging Details: 50pcs/carton
- Payment Terms: T/T, Western Union paypal
- Supply Ability: 500pcs/10days

Product Specification

- Material: Aluminum + Chips
- SMD Type: Smd3535
- Watts: 3W 5W
- Voltage: DC5V
- Application: Ultraviolet Disinfection
- Color: Purple
- Highlight: led rigid strip light bars, solid led light strip

- *Can be powered by USB connection (with rechargeable battery)*

Application:

How does it work?

Studies have shown that uv is mainly based on the microbial spores (bacteria, virus and other pathogens) of the radiation damage and damage the function of the nucleic acid kill microorganisms, so as to achieve the purpose of disinfection ultraviolet radiation on the function of nucleic acids can lead to broken strands of key and chain between crosslinking and photochemical products, etc., which changed the biological activity of DNA, the microbe itself cannot be copied, this uv damage is also fatal injuries

How many time dose it need to kill bacteria?

It takes anywhere from a few seconds to a few minutes, depending on the type of bacteria.
