Product Description

Advantages:
The light strip made of SMD 2835 LED chip has the characteristics of high brightness, high efficiency, long life and flexibility. It is widely used in indoor and outdoor lighting and decoration scenes, and is favored by professional decorators and ordinary home users because of its excellent performance.

Application :
Interior decoration: used in cabinets, display cabinets, bookshelves, bedside and other places to create a unique decorative effect.
Commercial lighting: used in store window lighting, shopping mall corridor lighting or restaurant bar lighting and other places to attract customers' attention and enhance brand image.
Outdoor landscape: Waterproof, suitable for lighting outdoor spaces such as gardens, terraces, swimming pools or courtyards.
