

Home Recessed Aluminium LED Profile Ultra-thin Design PMMA Clear Diffuser

Our Product Introduction

for more products please visit us on led-stripslights.com

Basic Information

- Place of Origin: Shenzhen China
- Brand Name: YSENLED
- Certification: CE ROHS LVD EMS
- Model Number: YS-R120X2835RAF3
- Minimum Order Quantity: 100
- Price: Negotiable
- Packaging Details: 115*19*20cm
- Delivery Time: Within 48 hours
- Payment Terms: T/T
- Supply Ability: 100,000 meters per week

Product Specification

- Ultra-thin Design: Only 6mm Thick, Suitable For Applications That Require Concealed Installation Or Limited Space, Such As Cabinets, Showcases, Ceiling Inlays Or Furniture Edges.
- Narrow Bezel: The 5mm Narrow Bezel Design Greatly Reduces Visual Interference And Provides An Almost Invisible Lighting Option For Modern Interior Decoration.
- Easy To Install: Equipped With Professional Installation Accessories And Simple Installation Design, Users Can Complete The Installation Conveniently And Quickly Without Complex Tools Or Professional Skills.
- Material: Aluminum Alloy
- Option2: PMMA Semi-clear Matte Diffuser

Product Description

Product Description:

The Super Super Slim 6mm Recessed Aluminum Led Profile is made from high-quality aluminum alloy, ensuring durability and longevity. This material also helps to dissipate heat, which is important for maintaining the longevity of LED strip lights. The LED type used in this product is the 3528, which provides bright and energy-efficient lighting that is perfect for any application.

One of the standout features of this slim led profile is the PMMA Opal Matte Diffuser option. This diffuser helps to evenly distribute the light, reducing glare and creating a more comfortable environment. Additionally, the diffuser helps to protect the LED strip lights from dust and other debris, ensuring a longer lifespan for your lighting installation.

Aside from its sleek design and durable construction, the Super Super Slim 6mm Recessed Aluminum Led Profile is also environmentally friendly and energy-efficient. The high-brightness, low-power LED light source used in this product helps to reduce energy consumption, making it a great choice for those looking to reduce their carbon footprint.

In summary, if you're looking for a modern and practical way to install LED strip lights, the Super Super Slim 6mm Recessed Aluminum Led Profile With 5mm Width 3528 120leds/M is an excellent choice. Its slim design and durable construction make it easy to install in tight spaces, while the PMMA Opal Matte Diffuser option helps to create a comfortable and evenly-lit environment. Additionally, the use of energy-efficient LED lighting makes this product an environmentally friendly choice that will help you save on your energy bills.

Features:

Product Name: Aluminium LED Strip Lights

Narrow bezel: The 5mm narrow bezel design greatly reduces visual interference and provides an almost invisible lighting option for modern interior decoration.

LED Type: 3528

Width: 5mm

Option1: PMMA Opal Matte Diffuser

LED Density: 120leds/M

Features:

Provides slim recessed lighting option

Comes with recessed led profile

Offers slim recessed led light

Technical Parameters:

Product Name:	Super Super Slim 6mm Recessed Aluminum Led Profile With 5mm Width 3528 120leds/M
LED Density:	120leds/M
Width:	5mm
Ultra-thin design:	only 6mm thick, suitable for applications that require concealed installation or limited space, such as cabinets, showcases, ceiling inlays or furniture edges.
Efficient heat dissipation:	The aluminum material itself has good thermal conductivity, which can effectively dissipate the heat generated by the LED light source and extend the service life of the lamp.
Option1:	PMMA Opal Matte Diffuser
Easy to install:	Equipped with professional installation accessories and simple installation design, users can complete the installation conveniently and quickly without complex tools or professional skills.
Application areas for home decoration:	Hidden lighting in living rooms, kitchens, and bedrooms enhances the modern feel of living spaces.
Environmental protection and energy saving:	Using high-brightness, low-power LED light source, it is energy-saving and environmentally friendly, and complies with modern green building standards.
Application areas for office spaces:	Indirect lighting in offices and conference rooms creates a comfortable working environment.

Applications:

The efficient heat dissipation of the Aluminum LED Strip Lights is one of its key features. The aluminum alloy material has good thermal conductivity, which allows for the effective dissipation of heat generated by the LED light source. This extends the service life of the lamp and ensures that it remains functional for a longer period of time.

The Aluminum LED Strip Lights are highly flexible, allowing for customization and cutting to different lengths according to the specific needs of the lighting layout design. The LED type used is 3528, which is energy efficient and long-lasting.

These lights can be used in a variety of public spaces, such as wall or exhibit lighting in museums and galleries, to highlight the details and beauty of artworks. The recessed LED profile allows for the light to be discreetly installed, while the aluminum LED profile ensures

durability and a sleek appearance.

Support and Services:

Our Aluminium LED Strip Lights are designed to be easy to install and use. However, we understand that you may have technical questions or issues that require support. That's why we offer comprehensive product technical support and services to all our customers. Our technical support team is available to assist you with any questions or issues you may have regarding the installation, setup, or operation of our Aluminium LED Strip Lights. Whether you need help troubleshooting an issue, or simply have a question about how to use the product, our team is here to help.

In addition to our technical support services, we also offer a range of other support services to help you get the most out of our product. These include installation services, product training, and ongoing maintenance and support.

Our goal is to ensure that you are completely satisfied with your purchase of our Aluminium LED Strip Lights, and that you have all the support you need to use the product to its fullest potential.
