150mA Operating Current Aluminium LED Strip Lights with Warm White Color Temperature

Our Product Introduction

Basic Information

- Place of Origin: Shenzhen China
- Brand Name: YSENLED
- Certification: CE ROHS LVD EMS
- Model Number: YS-R120X2835RAF3
- Minimum Order Quantity: 100
- Price: Negotiable
- Packaging Details: 115*19*20cm
- Delivery Time: Within 48 hours
- Payment Terms: T/T
- Supply Ability: 100,000 meters per week

Product Specification

- Voltage: DC12/DC24V
- Power Per Lamp Bead: 0.5W
- Luminous Flux Per Lamp Bead: 40-60 Lumens
- Operating Current: 150mA
- Leds/roll: 300pcs/roll
- Voltage Range: DC12V
- Lamp Bead Model: SMD5630
- Lumen: 50-55LM/CRI 85
- Highlight: **Warm White LED Strip Lights**, **150mA LED Strip Lights**, **Aluminium LED Strip Lights**

Product Description

Product Description:

The Aluminium Cased LED Tape is versatile and flexible, making it easy to install in any space. The LED tape is available in both white and warm white colors, giving you the freedom to choose the perfect lighting for your home or office. The Aluminium Light Band Strip is perfect for a range of applications, including under-cabinet lighting, stair lighting, and accent lighting.
The Aluminium LED Ribbon Strip is designed to operate on DC12/DC24V, making it both energy-saving and cost-effective. The LED strip lights have a wide voltage range of DC12V, making them compatible with most power supplies. The LED strip lights consume less power than traditional lighting options, making them an eco-friendly and sustainable choice.
Our Aluminium LED Strip Lights offer a range of features that make them the perfect lighting solution for any space. The LED strip lights are highly flexible, allowing you to bend and shape them to fit any surface. The LED strip lights are also easy to install, with a self-adhesive backing that makes them easy to attach to any surface.
Experience Lighting with SMD5630 Light Strip in Aluminium LED Strip Lights. Our LED strip lights offer a long lifespan and require minimal maintenance, making them a practical and cost-effective lighting solution. The Aluminium LED Strip Lights are perfect for both residential and commercial spaces, providing an excellent source of ambient lighting.

Features:

Product Name: Experience Lighting with SMD5630 Light Strip in Aluminium LED Strip Lights
CCT: 2800-7500K
Voltage range: DC12V
Power: 72W/roll
Voltage: DC12/DC24V
Features:
Aluminium Cased LED Tape
Aluminium Light Band Strip
Aluminium LED String Lights

Technical Parameters:

Product Name	Experience Lighting with SMD5630 Light Strip in Aluminium LED Strip Lights
Color	White/Warm White
Power per lamp bead	0.5W
Operating current	150mA
Luminous flux per lamp bead	40-60 lumens
Size	10*5000 MM/roll
CCT	2800-7500K
Color temperature options	Warm white, pure white, cool white
Lamp bead model	SMD5630
Leds/roll	300pcs/roll

Applications:

The Experience Lighting with SMD5630 Light Strip in Aluminium LED Strip Lights is a popular product with a power of 72W/roll and 300pcs/roll. The energy-saving and longevity features make it a great choice for those who want to save on their electricity bills. The flexibility and easy installation make it easy to use in a wide range of applications.
The Aluminium Frame Flexible LED Strip Lights are perfect for indoor and outdoor lighting. They can be used for under-cabinet lighting, cove lighting, accent lighting, and more. The versatility of these lights makes them a popular choice for both residential and commercial applications. They are easy to install and can be cut to fit any length. The wide range of color temperatures and brightness levels make it easy to find the perfect lighting for your space.
When using the Aluminium Frame Flexible LED Strip Lights, it is important to ensure that you have the proper power adapter and sealing measures for waterproof light strips. Avoid high ambient temperatures to prevent damage to the lights. With these precautions in place, you can enjoy the benefits of the YSENLED Aluminium LED Strip Lights for years to come.

Support and Services:

Our Aluminium LED Strip Lights are designed to provide long-lasting and energy-efficient lighting solutions for various applications. However, should you encounter any technical issues with our product, our technical support team is ready to assist you.
Our technical support services cover a wide range of areas, including installation, troubleshooting, and maintenance. Our team of experts is equipped with the knowledge and skills necessary to help you get the most out of your Aluminium LED Strip Lights.
In addition to our technical support services, we also provide various other services to ensure the smooth operation of your lighting

system. These services include custom design and fabrication, project management, and installation support.
We are committed to providing our customers with the highest level of support and service. If you have any questions or concerns about our Aluminium LED Strip Lights, please do not hesitate to contact us.

Packing and Shipping:

Product Packaging:
The Aluminium LED Strip Lights will be packaged in a sturdy cardboard box to ensure safe delivery. The box will be labeled with the product name and dimensions for easy identification.
Shipping:
The Aluminium LED Strip Lights will be shipped via a reliable courier service such as FedEx or UPS. Shipping will be calculated based on the destination and weight of the package. Customers will receive a tracking number to monitor the status of their shipment.

FAQ:

Q: What is the brand name of these LED strip lights?
A: The brand name of these LED strip lights is YSENLED.
Q: What is the model number of these LED strip lights?
A: The model number of these LED strip lights is YS-R120X2835RA-F3.
Q: What certifications do these LED strip lights have?
A: These LED strip lights are certified with CE, ROHS, LVD, and EMS.
Q: Where are these LED strip lights manufactured?
A: These LED strip lights are manufactured in Shenzhen, China.
Q: What is the minimum order quantity for these LED strip lights?
A: The minimum order quantity for these LED strip lights is 100.
Q: What are the payment terms for these LED strip lights?
A: The payment terms for these LED strip lights are T/T.
Q: What is the supply ability for these LED strip lights?
A: The supply ability for these LED strip lights is 100,000 meters per week.
Q: What is the delivery time for these LED strip lights?
A: The delivery time for these LED strip lights is within 48 hours.
Q: What are the packaging details for these LED strip lights?
A: The packaging details for these LED strip lights are 115*19*20cm.
Q: Is the price for these LED strip lights negotiable?
A: Yes, the price for these LED strip lights is negotiable.
