Product Description

Product Description:

Our Aluminium LED Flexible Tape Lights are equipped with waterproof designs, making them ideal for outdoor use. The lights are designed to withstand harsh weather conditions and provide bright illumination when you need it most. These lights are perfect for use in gardens, patios, balconies, or any other outdoor area.
The wavelength/ CCT of our Aluminium LED Flexible Tape Lights ranges from 2800-7500k. This means that the lights produce a warm and inviting glow that is perfect for creating a relaxing ambiance in any space. The lights are also dimmable, so you can adjust the brightness to suit your needs.
Our Aluminium LED Flexible Tape Lights have a lifespan of up to more than 50,000 hours. This means that you can enjoy bright and efficient lighting for years to come without having to replace the lights. The lights are also energy-efficient, which means that they consume less energy than traditional lighting sources.
The substrate of the light strip is mostly made of FPC (flexible circuit board), making it flexible and easy to install. The lights are also lightweight, which means that they can be easily moved from one location to another. The lights can be cut to any length, making them perfect for use in any space.
Our Aluminium LED Flexible Tape Lights are perfect for use in homes, offices, and commercial spaces. They are ideal for use in kitchens, living rooms, bedrooms, or any other space that requires bright and efficient lighting. The lights are easy to install and can be used in a variety of ways, making them a versatile lighting solution.
