

## PMMA Opal Matte Diffuser Aluminium LED Strip Good Thermal Conductivity

### Our Product Introduction

for more products please visit us on [led-stripslights.com](http://led-stripslights.com)

#### Basic Information

- Place of Origin: Shenzhen China
- Brand Name: YSENLED
- Certification: CE ROHS LVD EMS
- Model Number: YS-R120X2835RAF3
- Minimum Order Quantity: 100
- Price: Negotiable
- Packaging Details: 115\*19\*20cm
- Delivery Time: Within 48 hours
- Payment Terms: T/T
- Supply Ability: 100,000 meters per week

#### Product Specification

- Suitable For Indoor Occasions: Commercial Displays, Offices, Schools, Hospitals, Etc.
- Suitable For Decorative Lighting: High-end Hotels And Clubs
- PMMA Semi-clear Matte Option2 Diffuser:
- PMMA Clear Diffuser Option3 35X42mm:
- Heat Sink Structure: Designed With A Variety Of Fin Structures
- Advantages Of Aluminum Alloy Material: Good Thermal Conductivity, Lightweight, Corrosion Resistance
- Customized Design: Available
- Product Name: Heat Dissipation And Customized Design For Aluminium LED Strip Lights

## Product Description

### Product Description:

Equipped with precision welding technology, these LED tape aluminum lights are built to last. The heat dissipation and customized design ensure that they are both durable and efficient. With a PMMA opal matte diffuser as Option1, the light output is evenly distributed, creating a beautiful and uniform glow.

The heat sink structure is designed with a variety of fin structures, allowing for maximum heat dissipation and ensuring that the LED strip lights stay cool even after extended use. This not only increases the lifespan of the lights but also reduces the risk of overheating and fire hazards.

These strip lights LED lights are also highly customizable, giving you the flexibility to create the perfect lighting solution for your space.

Whether you need a warm and cozy ambiance or a bright and energetic atmosphere, the Aluminium LED Strip Lights can be tailored to your specific needs.

Overall, the Heat Dissipation and Customized Design for Aluminium LED Strip Lights are a top-of-the-line solution for any decorative lighting needs. With its precision welding technology, PMMA opal matte diffuser, and heat sink structure, these LED strip lights are built to last and provide beautiful, customizable lighting for any space.

### Features:

Product Name: Aluminium LED Strip Lights

Product Category: Aluminium LED Strip Lights

PMMA Opal Matte Diffuser: Option1

Sunflower Heat Dissipation Structure: Available

Aluminum Alloy Material: Used

Customized Design: Available

Our Aluminium LED Strip Lights are perfect for a wide range of applications, including industrial led strip lights. With a PMMA opal matte diffuser and the option for a sunflower heat dissipation structure, these LED tape aluminum lights are designed with quality and performance in mind. Made from durable aluminum alloy material, these lights are built to last. And with the option for customized design, you can tailor them to your specific needs.

### Technical Parameters:

Product Category	Aluminium LED Strip Lights
PMMA Semi-clear Matte Diffuser	Option2
PMMA Clear Diffuser 35X42mm	Option3
PMMA Opal Matte Diffuser	Option1
Aluminum Alloy Material	Used
Heat Sink Structure	Designed with a variety of fin structures
Welding Process	Precision welding technology
Customized Design	Available
Suitable for Industrial Applications	Factory workshops and warehouses
Suitable for Outdoor Occasions	LED street lights, solar garden lights, etc.

### Applications:

The Aluminium LED Strip Lights are suitable for industrial applications such as factory workshops and warehouses. They provide bright and efficient lighting that can increase productivity and safety in these settings. The PMMA Clear Diffuser 35X42mm Option3 is available for customers looking to enhance the aesthetics of their workspace while still maintaining high-quality lighting.

For decorative lighting purposes, the Aluminium LED Strip Lights are an ideal choice for high-end hotels and clubs. The customizable design of these lights allows for creative and unique lighting installations that can enhance the ambiance of any space.

In indoor settings, the Aluminium LED Strip Lights are suitable for commercial displays, offices, schools, hospitals, and more. They provide bright and efficient lighting that can improve productivity and visibility while also being energy-efficient.

YSENLED Aluminium LED Strip Lights have a supply ability of 100,000 meters per week, and delivery time is within 48 hours. The packaging details are 115\*19\*20cm, and the price is negotiable depending on the order quantity. Payment terms are T/T.

Overall, YSENLED Aluminium LED Strip Lights are a versatile and efficient lighting solution suitable for a wide range of applications. Their excellent heat dissipation and customizable design make them an excellent choice for both industrial and decorative purposes.

### Support and Services:

Our Aluminium LED Strip Lights come with comprehensive technical support and services to ensure maximum performance and reliability. Our team of experts is available to assist you with any technical issues or questions you may have about the product.

We also offer installation and maintenance services to help you get the most out of your LED Strip Lights. Our experienced technicians can install the lights for you and provide ongoing maintenance to ensure they continue to operate at peak performance.

In addition, we provide product training to help you familiarize yourself with the features and capabilities of the Aluminium LED Strip Lights. This training can be customized to meet your specific needs and can be conducted on-site or remotely. Finally, our product warranty ensures that you are covered in the unlikely event of any defects or malfunctions with your LED Strip Lights. Our team will work quickly to resolve any issues and get your lights back up and running as soon as possible.

**Packing and Shipping:**

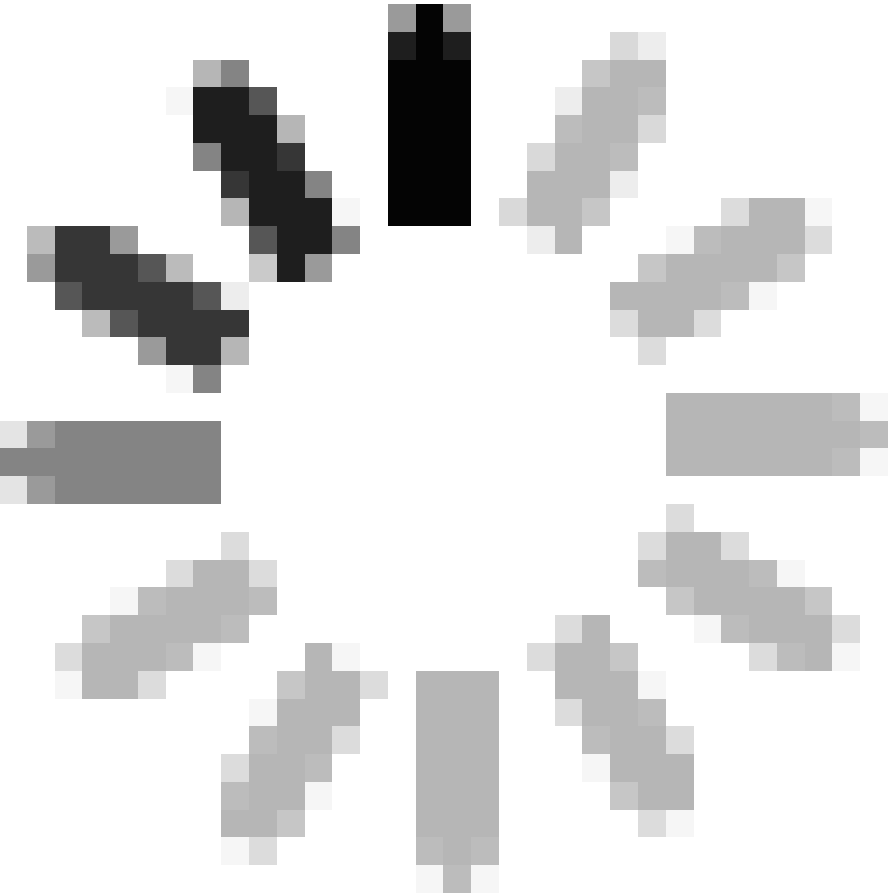

The Aluminium LED Strip Lights will be packaged securely to ensure safe delivery. The product will be placed in a sturdy cardboard box with protective foam padding to prevent damage during shipping.

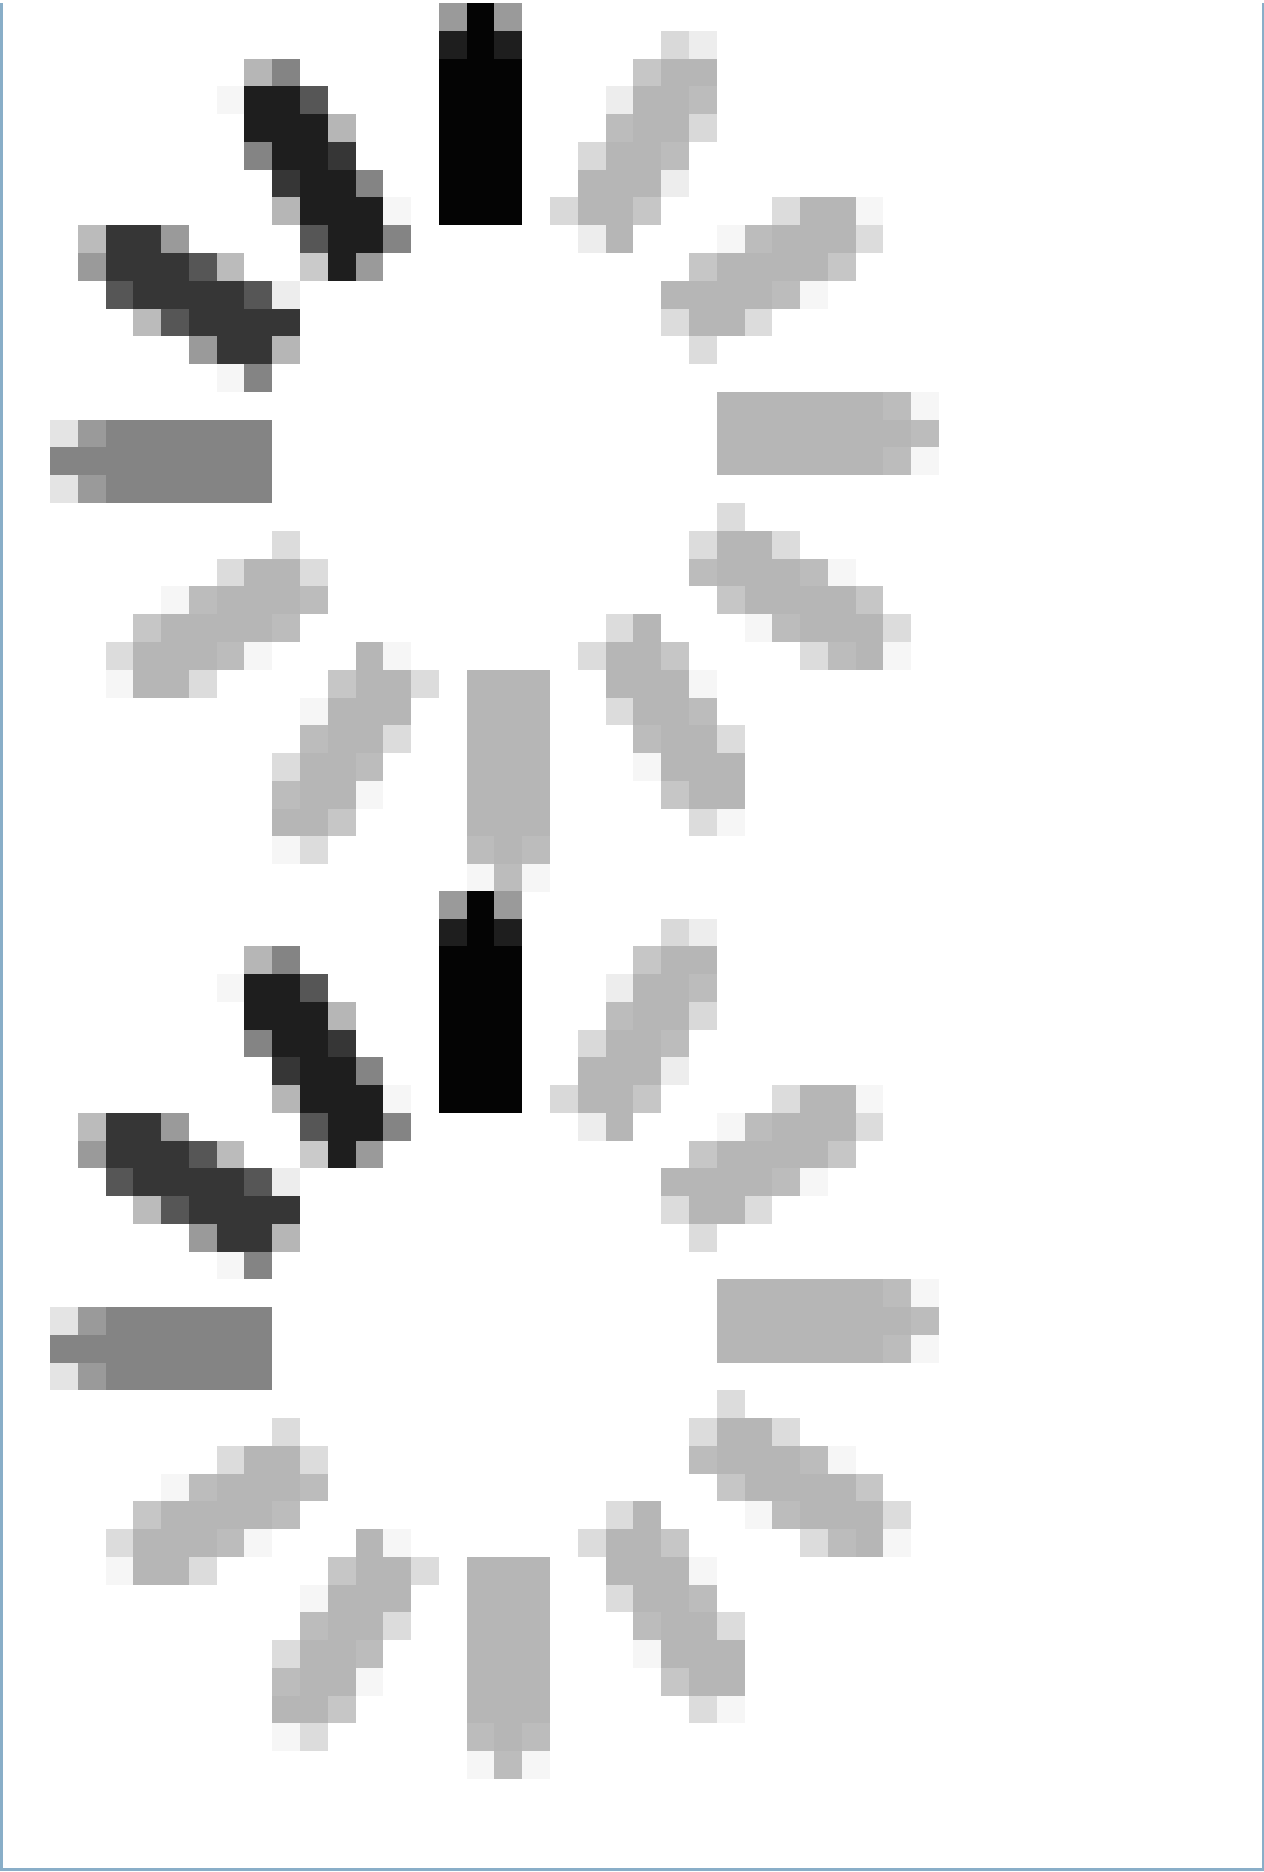

Shipping:

The Aluminium LED Strip Lights will be shipped within 24-48 hours of purchase. We offer free standard shipping within the United States, which typically takes 3-5 business days for delivery. Expedited shipping options are also available for an additional fee.
