

Waterproof Low Voltage LED Light Strip 12V SMD5630 For Advertising Light Box

Our Product Introduction

Basic Information

- Place of Origin: Shenzhen China
- Brand Name: YSENLED
- Certification: CE ROHS LVD EMS
- Model Number: YS-R60X5630RA-F3
- Delivery Time: Within 48 hours
- Payment Terms: T/T
- Supply Ability: 100,000 meters per week

Product Specification

- Color: White/Warm White
- CCT: 2800- 7500K
- Leds/roll: 300pcs/roll
- Voltage: DC12V
- Power: 60W/roll
- Size: 6*5000 MM/roll
- Lumen: 50-55LM/ CRI 85
- Highlight: **12V Waterproof LED Light Strip ,
SMD5630 Waterproof LED Light Strip**

Product Description

LED light strip 12V SMD5630 high brightness sleeve dripping waterproof low voltage LED advertising light box line product introduction is as follows:

1. Product Overview

This product is an LED light strip designed for advertising light boxes, powered by 12V low voltage, equipped with SMD5630 high brightness LED lamp beads. The light strip has been treated with sleeve dripping glue and has good waterproof performance, suitable for various indoor and outdoor environments.

2. Main features

- (1)High brightness: It uses SMD5630 high brightness LED lamp beads with high luminous flux and lumen value, which can provide bright and uniform lighting effects.
- (2)Low voltage power supply: 12V low voltage power supply, safe and reliable, reducing the risk of use.
- (3)Waterproof performance: After the sleeve dripping glue treatment, the light strip has good waterproof performance and can work normally in humid or rainy environments.
- (4)Long life: Made of high-quality materials and exquisite craftsmanship to ensure that the product has a long service life.
- (5)Energy saving and environmental protection: LED lamp beads have the characteristics of low power consumption and high efficiency, which can save a lot of electricity compared with traditional lighting products.

3. Detailed parameters

- (1)Model: LED light strip 12V SMD5630
- (2)Voltage: 12V
- (3)LED lamp bead model: SMD5630
- (4)Waterproof level: waterproof treatment, suitable for humid and rainy environments
- (5)Luminous flux: Depends on the specific specifications and the number of lamp beads
- (6)Color temperature: You can choose lamp beads with different color temperatures according to your needs, such as warm white, natural white, pure white, etc.
- (7)Lighting angle: 120°
- (8)Power: Depends on the specific specifications and the number of lamp beads, usually designed for low power consumption

4. Application field

This product is widely used in advertising light boxes, display cabinet lighting, shopping mall decoration, hotel lighting, home decoration and other fields, providing bright and uniform lighting effects for various places.

5. Precautions for use

- (1)Please use within the specified voltage range to avoid overvoltage or undervoltage causing product damage.
- (2)Do not use it for a long time in a humid or high temperature environment to avoid affecting product performance and service life.
- (3)Please pay attention to safety during installation to avoid dangerous situations such as electric shock or short circuit.
- (4)If you need to clean the product, please wipe it with a soft cloth and avoid using chemical cleaners or solvents.
- (5)Through the above introduction, I believe you have a comprehensive understanding of the LED light strip 12V SMD5630 high brightness tube dripping waterproof low voltage LED advertising light box line product. If you have more questions or needs, please feel free to contact us.
