Product Description

Product introduction of multi-color LED light strip color-changing household living room ceiling long strip line light trough outdoor waterproof patch

1. Product Overview

This product is a three-color LED light strip designed for modern home, especially suitable for the decoration and lighting of living room ceiling. Its long strip line light trough design can perfectly integrate into various home styles, and at the same time has the waterproof function of outdoor use, adding a touch of warmth and fashion to the home space.

2. Product Features

Three-color adjustable: The product supports three color temperature switching of white light, warm light and neutral light, which can be easily adjusted according to different scenes and moods to create a comfortable and pleasant home atmosphere.

Waterproof patch design: The surface of the light strip is made of waterproof patch material, which can maintain a stable lighting effect even in outdoor or humid environments, making home decoration unrestrained.

High efficiency and energy saving: It uses LED light source, which is more energy-saving than traditional lamps, and has high luminous efficiency and long service life, reducing the trouble of frequent replacement of lamps.

Simple and stylish: The long strip line light trough design is simple and generous, which can be integrated with various home styles, and easily create a modern and fashionable home space.

Flexible installation: The light strip can be cut according to the length of the ceiling or wall, and the installation is convenient and flexible to meet the needs of different home spaces.

3. Technical specifications

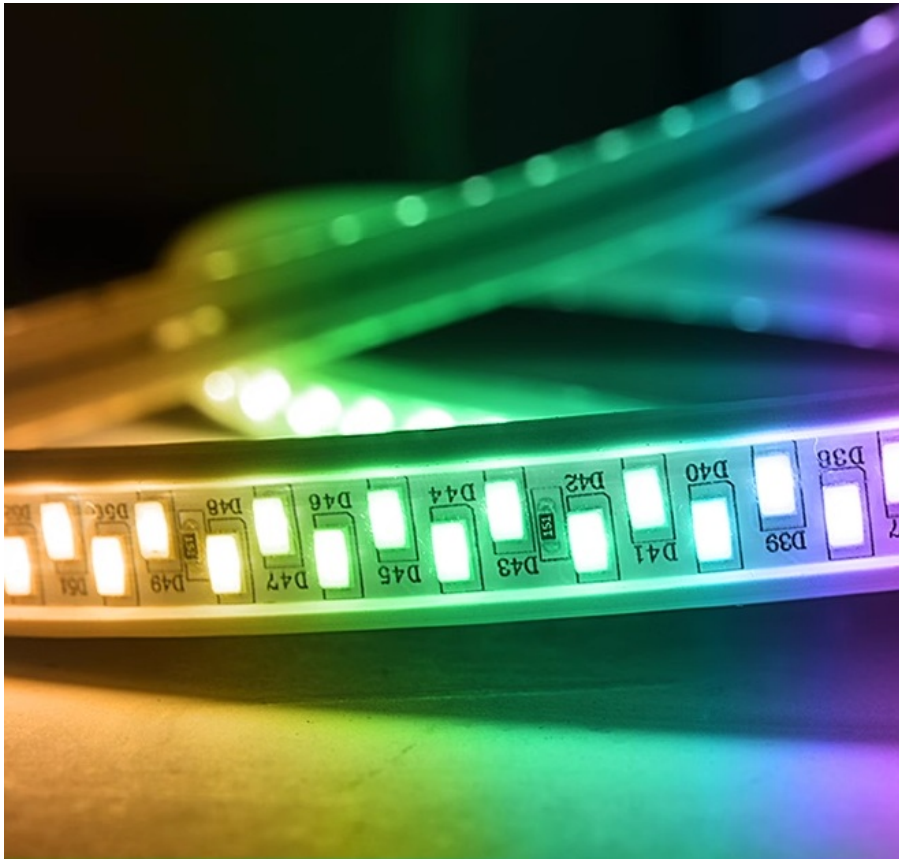

Input voltage: 24V (in line with China's household voltage standards)

LED lamp bead model: high-efficiency LED chip to ensure uniform and stable light color

Waterproof level: IPXX (the specific waterproof level depends on the product model)

Color temperature range: white light, warm light, neutral light

Certification: in line with international certification standards such as CE and RoHS

4. Application scenarios

Living room ceiling: as the main lighting or atmosphere light source in the living room, it creates a comfortable and warm gathering atmosphere for family and guests.

Outdoor decoration: It can be used for decorative lighting in outdoor balconies, terraces and other spaces, adding a sense of fashion and practicality to outdoor spaces.

Other home spaces: This product can also be used for lighting and decoration in spaces such as bedrooms, study rooms, and dining rooms to enhance the overall quality of the home.

5. Installation and maintenance

Installation: Please install according to the product manual to ensure that the light strip is flat and firmly fixed on the ceiling or wall. Pay attention to keep the connection between the light strip and the power cord stable and reliable.

Maintenance: Clean the surface of the light strip regularly to maintain the bright effect. If there is any damage or failure, please contact a professional for repair or replacement.

This three-color light strip LED light strip color-changing home living room ceiling long strip line light trough outdoor waterproof patch product has won the favor of consumers with its excellent performance and stylish appearance. Whether you are a home decoration enthusiast or a commercial space designer, you can find a satisfactory solution in this product.
