

Pre-Buried Light Strip Card Slot Line Light Strip Light Ceiling Triangle Surface Mounted Aluminum Profile

Our Product Introduction

Basic Information

- Place of Origin: Shenzhen China
- Brand Name: YSENLED
- Certification: CE ROHS LVD EMS
- Model Number: YS-BAPL067-F
- Price: Negotiable
- Delivery Time: Within 48 hours
- Payment Terms: T/T
- Supply Ability: 100,000 meters per week

Product Specification

- Description: Waterproof Led Profile:IP68, PMMA Opal Matte + PMMA Light Lense ,rigid LED Light Bar Applied Inside,suitable For Furniture Or Cabinet Lighting Or Bath Room
- Highlight: **Pre-Buried Light Strip Card Slot, Triangle Surface Mounted Aluminum Profile, Light Strip Surface Mounted Aluminum Profile**

Product Description

Product highlights revealed: Aluminum alloy embedded linear light strip ceiling system

Add a touch of modern and fashionable light and shadow charm to your space. We grandly launch the aluminum alloy embedded linear light strip ceiling system. This product cleverly combines the embedded light trough design with the durability of aluminum alloy profiles to form elegant and smooth linear light strips, which can be easily controlled in both commercial space and home environment.

Embedded design, simple but not simple

We are well aware of the pursuit of simplicity and practicality in modern decoration, so we adopt the embedded design to perfectly integrate the light trough and ceiling, which is not only more visually neat, but also effectively saves installation space, making your space more spacious and bright.

Aluminum alloy material, quality choice

The high-strength and corrosion-resistant aluminum alloy material is selected to ensure that the light strip system has excellent durability and stability. Whether facing a humid environment or frequent use, it can remain bright and new for a long time.

Linear light strip, the art of light and shadow

The unique linear light strip design can not only provide uniform and soft lighting effects, but also create a rich layer of light and shadow effects. Whether it is used as the main light source or auxiliary lighting, it can add a different artistic atmosphere to your space.

Various styles to meet different needs

We provide a variety of styles to choose from, including flat angle style, inner angle style, outer angle style, etc., to meet different space layout and lighting needs. Whether it is commercial display or home decoration, you can find the one that suits you best.

Don't hesitate, choose the aluminum alloy embedded linear light strip ceiling system to give your space a new glow!
