

Banquet Hall 24v60 Light 10-Segment Breakpoint Continuous RGBW Magic Water Light Strip

Our Product Introduction

Basic Information

- Place of Origin: Shenzhen China
- Brand Name: YSENLED
- Certification: CE ROHS LVD EMS
- Model Number: YS-R60X5050RA-F3
- Minimum Order Quantity: 1
- Price: Negotiable
- Packaging Details: 10*10
- Delivery Time: Within 48 hours
- Payment Terms: D/A, T/T, Western Union, D/A, D/P, L/C
- Supply Ability: 100,000 meters per week

Product Specification

- Color: Red/Yellow/Blue/Green/White/Warm White
- Wavelength/ CCT: 2800-7500k
- LED Qty/Roll: 300pcs/roll
- Voltage: DC24V
- Power: 72W/roll
- Dimension (mm/roll): 12*5000 Mm/roll
- Lumen: 50-55LM/ CRI 85
- Highlight: **RGBW Banquet Hall Light Strip,
24v60 Banquet Hall Light Strip,
10-Segment Banquet Hall Light Strip**

Product Description

Banquet Hall 24v60 Light 10-segment Breakpoint Continuous RGBW Magic Water Light Strip Product Detailed Introduction

I. Product Overview

This product is a 24v60 light 10-segment breakpoint continuous RGBW magic water light strip designed for banquet halls, bars, KTVs and other entertainment venues. Using advanced LED technology, combined with RGBW four-color lamp beads, it can achieve rich color changes and dynamic effects, creating a unique atmosphere for the venue.

II. Product Features

Breakpoint Continuous Transmission Function: The specially designed driver chip and signal transmission technology are used to realize the breakpoint continuous transmission function. Even if the light strip is physically cut off, the continuous transmission of the signal can be maintained to ensure the integrity and smoothness of the lighting effect.

RGBW four-color lamp beads: The light strip adopts RGBW four-color lamp beads, which can present richer and more delicate color changes. Through programming control, various dynamic effects and scene modes can be achieved to meet the needs of different venues.

24v safe voltage: The 24v safe voltage is used for power supply, which not only ensures the brightness and effect of the light strip, but also ensures the safety of use. At the same time, low-voltage power supply can effectively extend the service life of the lamp beads.

10-segment independent control: The light strip is divided into 10 independent control segments, each of which can be programmed and controlled separately. This makes the lighting effect more flexible and changeable, and can meet the needs of different scenes and activities.

Flowing light effect: The light strip supports the flowing light effect, and the lights flow on the light strip in sequence, forming a dynamic visual experience. This effect is very suitable for creating a festive atmosphere and enhancing the liveliness of the venue.

. Technical parameters

Power supply voltage: 24v

Number of LED lamp beads: 60

Number of control segments: 10 segments

Light source type: RGBW four-color lamp beads

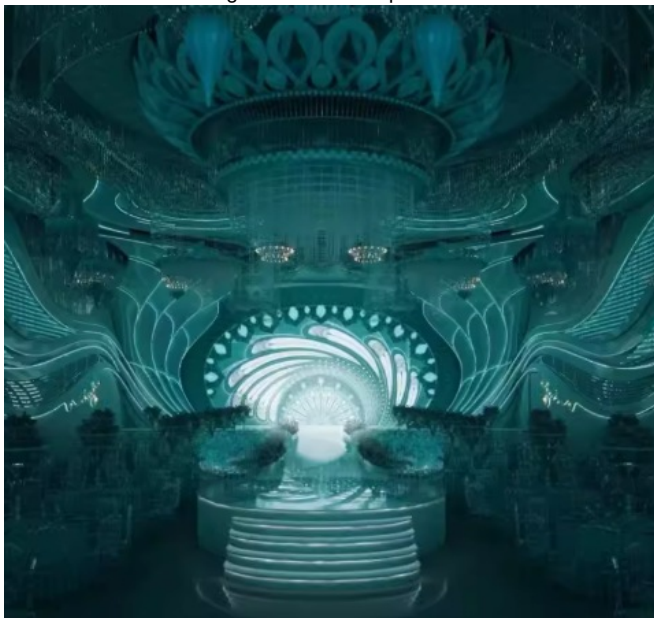

Power: Depends on the specific use situation

Light source life: up to tens of thousands of hours

. Application scenarios

This product is suitable for the decoration and atmosphere creation of banquet halls, bars, KTV and other entertainment venues. Through programming control, various dynamic effects and scene modes, such as gradient, flashing, breathing, etc., can be easily achieved. At the same time, the function of breakpoint resumption also makes the light strip more flexible and convenient in the arrangement and use process.

. Installation and maintenance

Please make sure that the power connection is correct and firm during installation.

Avoid using in humid or high temperature environments.

If there is any fault or damage, please contact after-sales personnel for repair or replacement in time.

VI. Summary

The banquet hall 24v60 lamp 10-segment breakpoint resume RGBW fantasy water light strip is a powerful and effect-rich LED decorative light strip product. It can not only meet the decoration needs of various places, but also create a unique atmosphere and visual effects. Through programming control, various dynamic effects and scene modes can be easily achieved, adding more charm and vitality to the place.
