

Low Voltage LED2835 Linear Light Strip for Wine Cabinet and Wardrobe in White/Warm White

Our Product Introduction

Basic Information

- Place of Origin: Shenzhen China
- Brand Name: YSENLED
- Certification: CE ROHS LVD EMS
- Model Number: YS-R30X3528RA-F3
- Minimum Order Quantity: 10
- Price: Negotiable
- Packaging Details: 10*200*10
- Delivery Time: Within 48 hours
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100,000 meters per week

Product Specification

- Color: White/Warm White
- CCT: 6000-6500/2800-3000
- LED Qty: 300pcs/ Roll
- Voltage: DC24V
- Power/roll: 96W/rol
- Size: 10*5000M M/roll
- Lumen Per LED: 22-24LM/CRI:83/81
- Highlight: Warm White LED2835 Linear Light Strip,
Wine Cabinet LED2835 Linear Light Strip,
Wardrobe LED2835 Linear Light Strip

Product Description

LED 2835 light strips, especially 12V or 24V low-voltage light strips, are designed for wine cabinets, wardrobes and linear lights, and have many advantages and characteristics. The following is a detailed introduction to the product:

1. Basic parameters

Working voltage: 12V or 24V DC voltage, which belongs to the safe voltage range and is safe to use.

Lamp bead model: 2835 LED lamp bead, size is 2.8mm×3.5mm×0.8mm, high luminous efficiency, up to 100-130 lm/W.

Working current: usually 20-60mA.

Lighting angle: 120 degrees, uniform light distribution.

Color temperature: can be selected according to needs, including white light (6500K), warm light (3000K) and neutral light (4000K) and other options.

2. Product features

High safety: low-voltage design, avoid the risk of electric shock, suitable for home and commercial environments.

Low energy consumption: LED technology itself has the characteristics of high efficiency and energy saving, and can maintain low energy consumption even after long-term use.

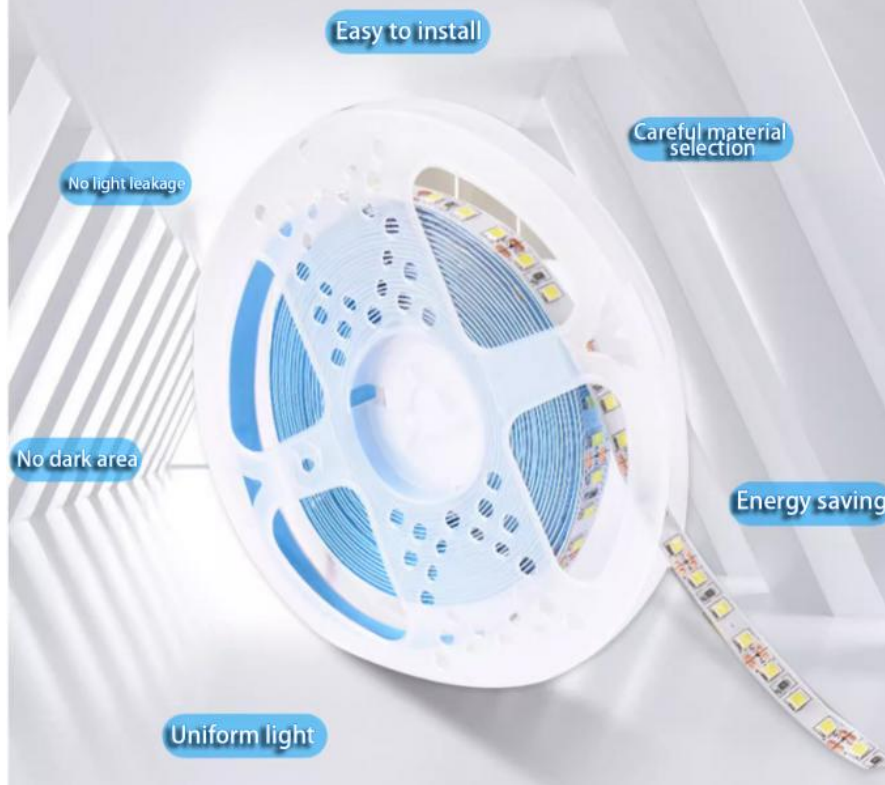

Long life: LED lamp beads have a long life, generally up to tens of thousands of hours, reducing the frequency of replacement and maintenance costs.

Soft light: The light is evenly distributed, soft and not dazzling, suitable for places such as wine cabinets and wardrobes that require fine lighting.

Flexible design: The light strip can be cut and spliced as needed to adapt to installation surfaces of various shapes, such as straight lines, curves, arcs, etc.

Easy to install: Equipped with special accessories and installation instructions, the installation process is simple and quick.

Fine Craftsmanship Inside And Out

3. Application areas

Home decoration: Suitable for lighting furniture such as wine cabinets, wardrobes, shoe cabinets, etc., to enhance the home atmosphere and aesthetics.

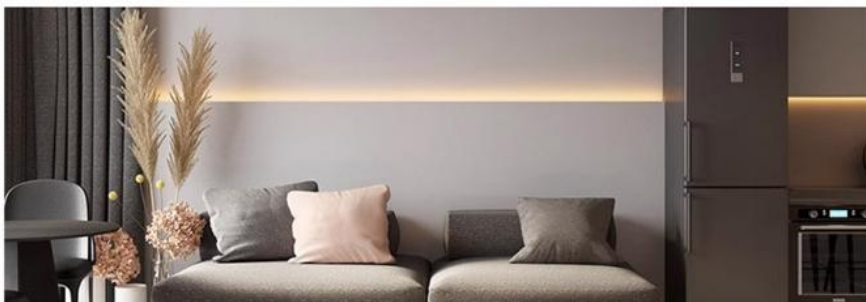

Commercial display: It can be used for lighting of shop windows, shelves, display cabinets, etc. to attract customers' attention and enhance the display effect of goods.

Landscape lighting: Used in outdoor landscapes, courtyards, corridors and other places to create a warm and comfortable lighting environment.

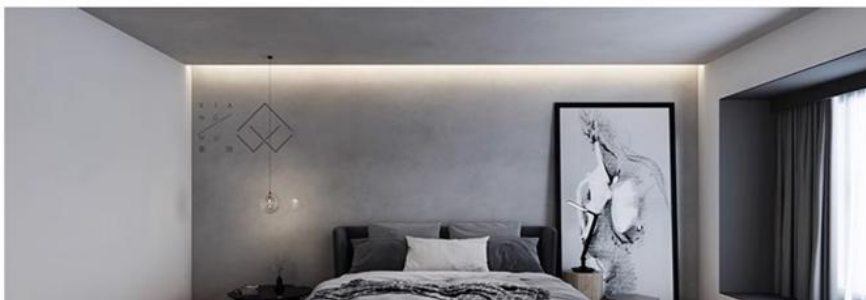

Industrial lighting: Provide sufficient brightness in industrial environments to help staff complete their work better.

High Color Rendering Light Strip Suitable For Multiple Scenes

Parlour

Bedroom

4. Precautions

Correct wiring: Make sure that the positive and negative poles of the light strip are correctly connected to the positive and negative poles of the power supply to avoid short circuits or the light strip not lighting up.

Voltage matching: Choose a suitable transformer or power supply according to the specifications and length of the light strip to ensure a stable voltage supply.

Installation location: Choose a suitable installation location to avoid direct sunlight or humid environment to extend the service life of the light strip.

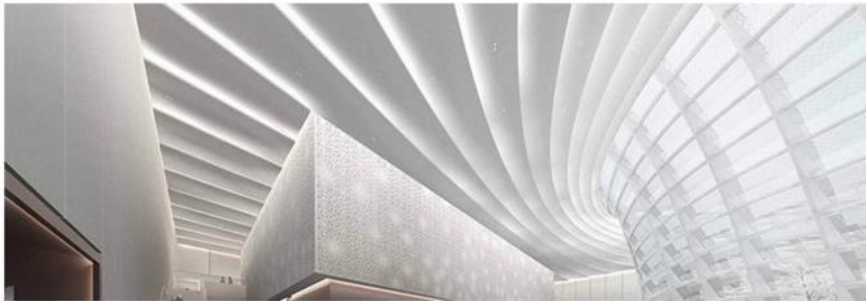

Waterproof treatment: In situations where waterproof and moisture-proof are required, choose a light strip with waterproof function or take other waterproof measures.

High Color Rendering Light Strip Suitable For Multiple Scenes

Bathroom

Business

5. Summary

LED 2835 light strips, especially 12V or 24V low-voltage light strips, have become an ideal choice for wine cabinets, wardrobes and linear lighting with their high efficiency and energy saving, safety and reliability, and flexible design. Whether it is home decoration or commercial display, it can provide users with a comfortable and beautiful lighting experience.
