

## Wine Cabinet Light Strip Embedded LED Layer Light Line Separation Magnetic Removable Light Strip

Our Product Introduction

for more products please visit us on led-stripslights.com

### Basic Information

- Place of Origin: SHENZHEN CHINA
- Brand Name: YSENLED
- Certification: CE ROHS LVD EMS
- Model Number: YS-BAPL067-F
- Minimum Order Quantity: 10
- Price: Negotiable
- Packaging Details: 10\*1000\*20
- Delivery Time: 2DAYS
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100,000 meters per week

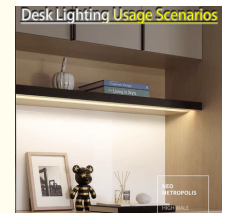

### Product Specification

- Lamp Body Material: Copper
- Pcb: Aluminum
- Cct: 2800-7500K
- Lamp Power: 14.4W/M, 12W/M, 57.6W/M, 60W
- Processing Performance: Easy To Cut, Drill, Bend
- Emitting Color: RGB, Changeable
- Energy Efficiency: Low Power Consumption And Long Life
- Certifications: CE, RoHS
- Waterproof: Yes
- Adhesive Backing: Yes
- Shape: Square, Flat, Angle
- Safety Certifications: CE, RoHS, Etc.
- Light Source: LED
- Led Chip: Smd5730
- Warranty: 3 Years

### Product Description

Wine cabinet light strip embedded LED layer board light line separation magnetic removable light strip induction wardrobe shoe dining side cabinet products, combined with the many advantages of modern home lighting technology, provide users with storage space both beautiful and practical lighting solutions. The following is a detailed introduction to this type of product:

#### 1. Product features

##### Embedded design:

The product adopts an embedded design, which can be perfectly integrated into the layers of furniture such as wine cabinets, wardrobes, shoe cabinets, dining side cabinets, etc., without occupying additional space, while keeping the appearance of the furniture neat and unified.

##### LED light source:

Using LED as a light source has the advantages of energy saving, environmental protection, and long life. The LED light source has high luminous efficiency and good color reproduction, which can provide a bright and comfortable lighting environment for the storage space.

##### Line separation design:

The light strip and power cord adopt a separate design for easy installation and maintenance. Users can freely adjust the position and length of the light strip according to their needs to adapt to storage

Our Product Introduction

spaces of different sizes.

**Magnetic removable:**

The light strip adopts a magnetic design, which can be easily adsorbed on the layer board without the need to use screws or glue to fix it. This design is not only easy to install, but also easy to disassemble and replace the light strip in the future.

**Induction control:**

The product is equipped with an induction switch, which usually has multiple modes such as human body induction and hand scanning induction. When someone approaches, the light strip automatically lights up; when the person leaves, the light strip automatically turns off, which is convenient and energy-saving.

## Three Light Colors Are Optional Meet Different Lighting Needs

### 2. Application scenarios

**Wine cabinet:** Provide soft and focused lighting for high-end wines to show the charm of wines.

**Wardrobe:** Provide bright lighting when looking for clothes to avoid the trouble of rummaging through boxes.

**Shoe cabinet:** Illuminate every detail of the shoes to facilitate users to choose and match.

**Sideboard:** Provide lighting for tableware, wine glasses and other items to create a warm dining atmosphere.

### 3. Installation and maintenance

**Installation:** First determine the installation position and length of the light strip, then fix the light strip on the shelf by magnetic suction, and connect the power cord. The installation process is simple and quick, and no professional tools are required.

**Maintenance:** LED light strips have a long service life, but they also need to be cleaned and checked regularly. If you find that the light strip is not on or the brightness is reduced, you can check whether the power cord connection is good or try to replace a new light strip.

## Showcase Lighting Usage Scenarios

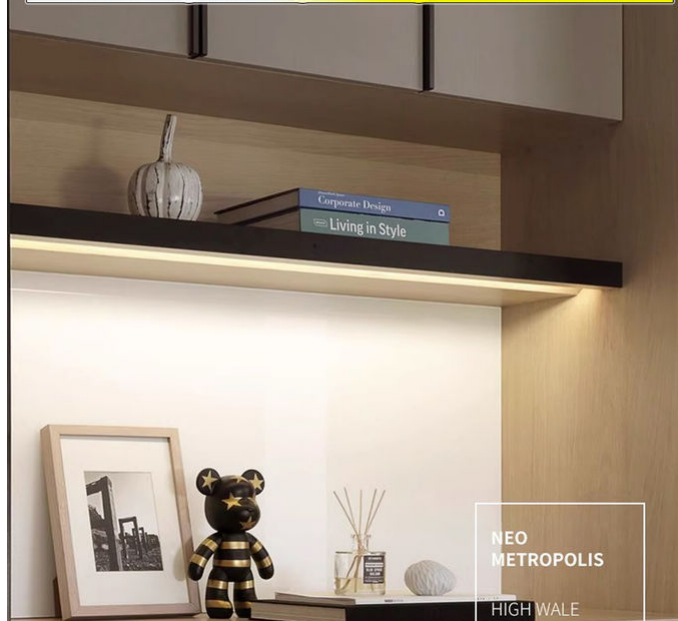

### **4. Purchase suggestions**

**Brand selection:** Give priority to products from well-known brands, such as YSENLED, as the product quality of these brands is more guaranteed.

**Power and brightness:** Choose the appropriate power and brightness according to the size of the storage space and the lighting needs. Generally speaking, spaces such as wine cabinets and wardrobes can choose light strips with moderate power and soft brightness.

**Sensing mode:** Choose the appropriate sensing mode according to personal preferences and usage habits. For example, if you want to be more convenient when using, you can choose the human body sensing mode; if you want to reduce the possibility of false triggering, you can choose the hand scanning sensing mode.

## Desk Lighting Usage Scenarios

In summary, the wine cabinet light strip embedded LED layer board light line separation magnetic detachable light strip induction wardrobe shoe dining side cabinet product is a lighting solution that integrates beauty, practicality and convenience, which can bring users a more comfortable and convenient home life experience.
