

Silicone LED Soft Light Strip for Counter Advertising Light Box Decorative 12v Ultra-Thin

Our Product Introduction

for more products please visit us on led-stripslights.com

Basic Information

- Place of Origin: SHENZHEN CHINA
- Brand Name: YSENLED
- Certification: CE ROHS LVD EMS
- Model Number: YSR60X5630RA-F3
- Minimum Order Quantity: 10
- Price: Negotiable
- Packaging Details: 10*1000*20
- Delivery Time: 2DAYS
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100,000 meters per week

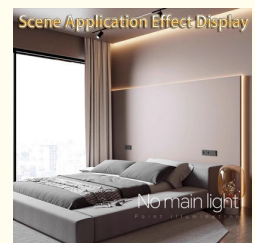

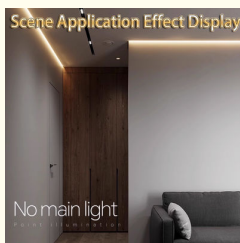

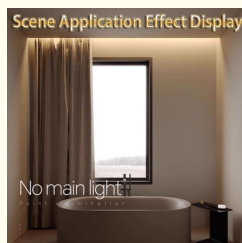

Product Specification

- Outer Cover Materials: Food Grade Silicon Gel
- Cuttable Length: Every 3 LEDs
- Material: Silicone
- Power Adapter: DC24V
- Led Quantity: 120pcs /m
- Cri: 75
- Ip Rank: Ip65
- Sample: Free Sample Is Available
- Led Configuration: 72LEDs Per Metre, 5050
- Waterproof Grade: IP68
- Size: 5000X10MM
- Warrant: 1year
- Dimensions: 6*12MM
- Chip: Epistar
- Color: White Color, RGB For Option

Product Description

The following is a detailed introduction to the LED soft light strip 12v ultra-bright low-voltage 2835 counter advertising light box decorative light ultra-thin self-operated advertising products:

Our Product

1. Product Overview

LED soft light strip 12v ultra-bright low-voltage 2835 counter advertising light box decorative light is an ultra-thin, high-brightness lighting product designed for counters, advertising light boxes and other places. It adopts advanced LED technology and low-voltage power supply, and has the characteristics of energy saving, environmental protection, safety and reliability, and long service life.

Three Light Colors For You To Choose

2. Product Features

Super brightness: The LED soft light strip adopts 2835 model LED lamp beads, which contains 120 lamp beads per meter, with high brightness and high color rendering index, which can present real and vivid color effects.

Low-voltage power supply: The product adopts 12v low-voltage power supply, which is not only safe and reliable, but also effectively avoids safety hazards such as electric shock.

Ultra-thin design: The LED soft light strip adopts ultra-thin design, with a thickness of only a few millimeters, which can easily adapt to various narrow installation spaces without taking up too much space.

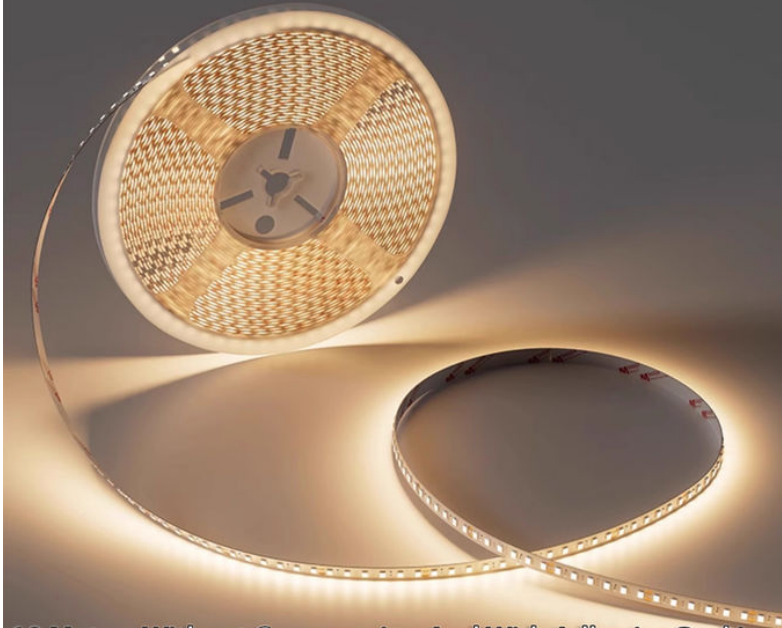

Self-adhesive function: The product has self-adhesive glue on the back, which can be easily pasted on various flat surfaces such as glass, metal, plastic, etc., without the need for additional fixings.

Multiple color temperatures available: Provides a variety of color temperature options such as white light (6500k), warm white (3500k) and neutral white (4500k) to meet the lighting needs of different places.

Energy saving and environmental protection: LED soft light strips use efficient LED light sources and low-voltage power supply methods, which have significant energy-saving effects and reduce the impact on the environment.

3. Product specifications

Input voltage: 12v

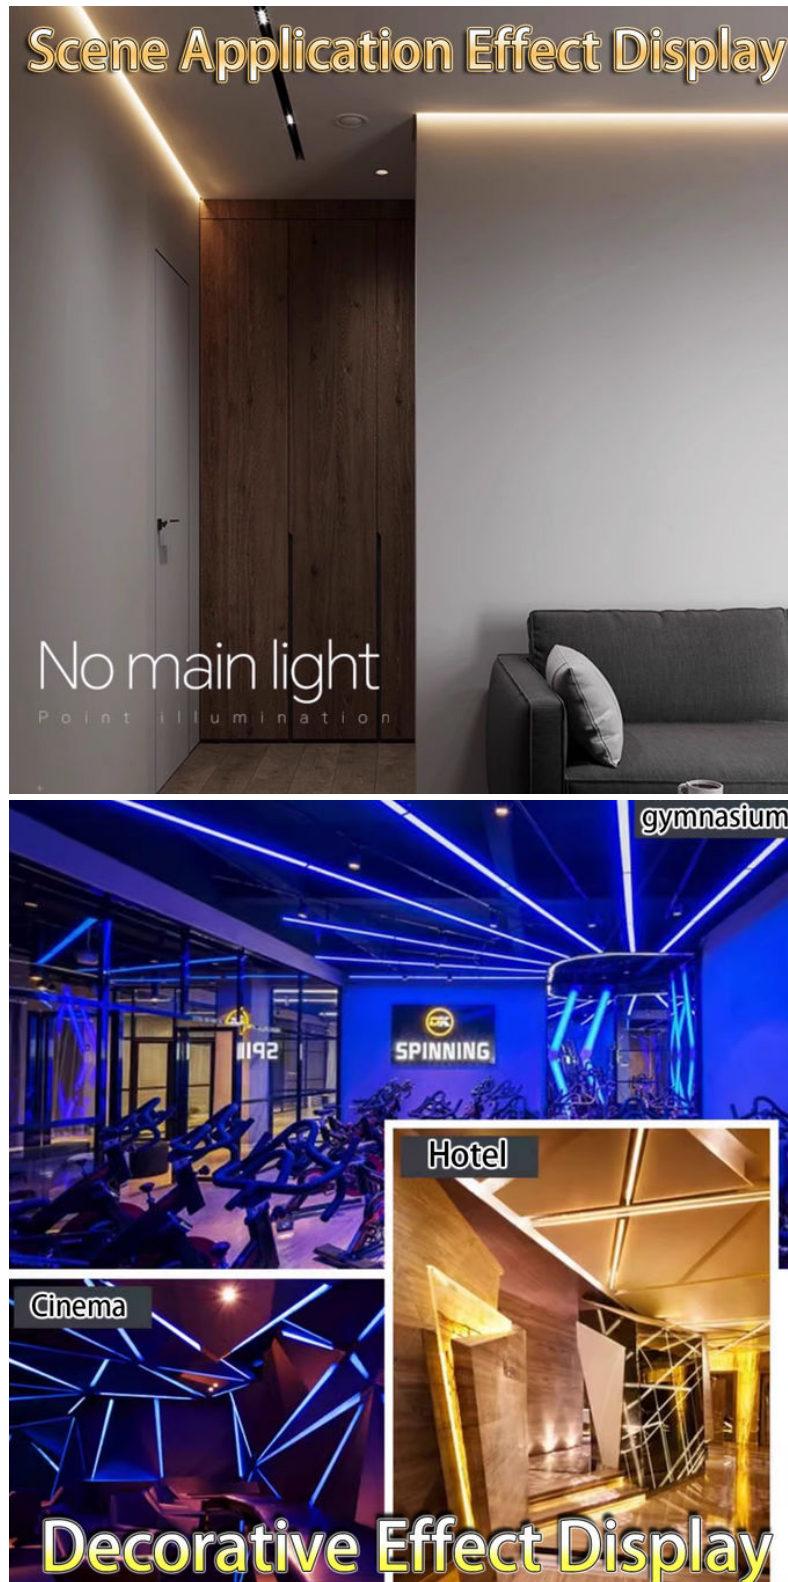

LED chip brand: Sanan Optoelectronics
LED lamp bead model: 2835
Number of LED lamp beads: 120 beads/m
Lumen of a single lamp bead: 5lm
Beam angle: 120°
Power factor: 90%
Effective life: 20,000 hours
Dimensions: 5000mm×8mm (length can be customized according to needs)
Protection level: IP20 (not waterproof)

4. Application scenarios

This LED soft light strip is suitable for lighting and decoration of various counters, advertising light boxes, exhibitions, home decoration and other places. Its high brightness and high color rendering index can highlight the characteristics and charm of the product and enhance the overall visual

effect.

5. Product advantages

Reliable quality: high-quality LED lamp beads and electronic components are used to ensure the stability and reliability of the product.

Affordable price: Compared with traditional lighting products, LED soft light strips have a higher cost-effectiveness and can save users more costs.

Easy to install and maintain: The product adopts a self-adhesive design, which is easy and quick to install; at the same time, the LED lamp beads have a long life and low maintenance cost.

6. Precautions

During use, please ensure that the input voltage is consistent with the product specifications to avoid damage to the product due to over-high or under-low voltage.

Do not expose the LED soft light strip directly to a humid or high temperature

environment to avoid affecting the service life and performance of the product. If you need to clean the product, please wipe it gently with a soft dry cloth, and avoid using a wet cloth or chemical solvents.

In summary, the LED soft light strip 12v ultra-bright low-voltage 2835 counter advertising light box decorative lamp is a lighting product with superior performance, reliable quality and affordable price, suitable for various lighting and decorative places that require high brightness and high color rendering index.
