

Embedded Silicone LED Neon Light Strip 24V Low Voltage Flexible Soft Linear Light Strip

Our Product Introduction

for more products please visit us on led-stripslights.com

Basic Information

- Place of Origin: SHENZHEN CHINA
- Brand Name: YSENLED
- Certification: CE ROHS LVD EMS
- Model Number: YS-R120X2835RAF3
- Minimum Order Quantity: 10
- Price: Negotiable
- Packaging Details: 10*1000*20
- Delivery Time: 2DAYS
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100,000 meters per week

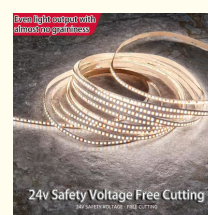

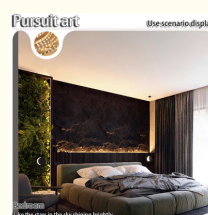

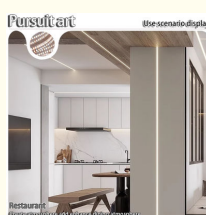

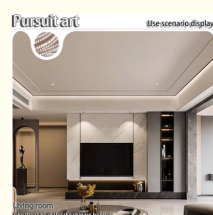

Product Specification

- Waterproof Rating: IP65
- Connector Protection: Waterproof IP68
- Reel: 10m/reel
- Led Brand: Epistar
- Remote Control: Yes
- Customized: Yes, Available
- Meter: 5m/reel
- Type: LED Strip Lights
- Led Type: HD107S
- Operating Current: 150mA
- Light Source: LED
- Cuttable Length: Every 3 LEDs
- Oem Odm: Accepted
- Hs Code: 9405409000
- Led Light Source: SMD2835

Product Description

The following is a detailed introduction to the embedded silicone light strip LED neon light 24V low voltage 12 linear light strip flexible soft glue light trough outdoor waterproof product:

1. Product Overview

The embedded silicone light strip LED neon light is a linear light strip with silicone as the shell material and built-in LED lamp beads. This product has the characteristics of 24V low voltage power supply, 12 linear design, flexible soft glue light trough, etc., which is very suitable for decoration and lighting in outdoor waterproof occasions.

2. Product Features

Low voltage safety: The product adopts 24V low voltage power supply, which is safer and more reliable than high voltage lamps, reducing the risk of electric shock and fire.

Flexible design: The light strip adopts flexible soft glue material, which can be bent and cut at will to adapt to various complex installation environments.

Outdoor waterproof: The product has excellent waterproof performance and can be used for a long time in outdoor humid environment, and is not easy to be damp and damaged.

High brightness energy saving: LED lamp beads have the characteristics of high brightness, low power consumption, energy saving and environmental protection, and long service life.

Easy to install: The product adopts embedded installation method, which can be easily embedded in various light troughs and shapes, and the installation is simple and quick.

Bedroom

Like the stars in the sky shining brightly

3. Product specifications

Voltage: 24V

Linear design: 12 lines

Shell material: Silicone

Number of lamp beads: Depends on the specific length and density

Lighting angle: Generally 120° or wider

Power: Depends on the specific length and number of lamp beads

Waterproof level: IP65 or higher

Dense Lamp Beads Emit Light Evenly

There are 120 lamp beads per meter length

Corrosion
Resistance

Outline the contours and reflect the elegant charm

4. Application

scenarios

Outdoor decoration: Can be used for outdoor decoration occasions such as building exterior walls, landscape lighting, billboards, etc.

Home lighting: Can be used in home lighting occasions such as living rooms, bedrooms, and kitchens to create a warm and comfortable atmosphere.

Commercial lighting: Can be used in commercial lighting occasions such as shopping malls, hotels, and restaurants to enhance brand image and customer experience.

Even light output with
almost no graininess

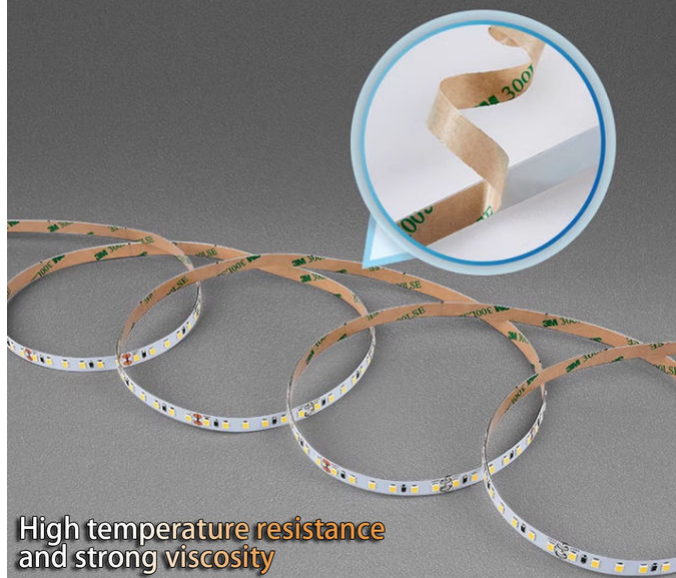

24v Safety Voltage Free Cutting

24V SAFETY VOLTAGE - FREE CUTTING

Double-sided Adhesive For Lossless Installation

The back of the light strip uses double-sided adhesive

High temperature resistance
and strong viscosity

5. Precautions

for use

Check before installation: Before installation, please check the integrity and waterproof performance of the product to ensure that the product is not damaged or leaking.

Correct installation: Please install the product correctly according to the product manual and installation guide to ensure that the product is firmly fixed and the wiring is correct.

Avoid moisture: Although the product is waterproof, please try to avoid soaking in water for a long time or exposing it to extremely humid environments.

Regular maintenance: Please clean the dust and dirt on the surface of the product regularly to keep the product clean and bright.

6. Conclusion

Embedded silicone light strip LED neon light 24V low voltage 12 linear light strip flexible soft glue light trough outdoor waterproof product is a high-performance and high-reliability lighting product, which is widely used in various outdoor decoration and lighting occasions. Through correct installation and maintenance, the long-term stable operation and excellent lighting effect of the product can be ensured.
