## Product Description

### Customizable Linear Recessed Black LED Plaster Ceiling Light

Modern recessed black LED plasterboard ceiling light trough designed for living room corner aluminum profile installations, combining energy efficiency with elegant aesthetics.

#### Product Overview

This recessed black LED plasterboard ceiling light trough is a premium lighting solution for modern home decoration. It integrates energy-efficient LED technology with durable aluminum profiles, creating a seamless black finish that blends perfectly with plasterboard ceilings. The corner aluminum profile trough design enables flexible installation angles and simplified setup.

#### Key Features

##### High Energy Efficiency

LED light sources provide superior energy efficiency compared to traditional lighting, significantly reducing power consumption while supporting environmental sustainability.

##### Aesthetic Design

Black aluminum profiles create clean, smooth lines that integrate seamlessly with plasterboard ceilings, enhancing both lighting performance and interior aesthetics.

##### Easy Installation

Corner aluminum profile trough design simplifies installation process, allowing secure fixture mounting without complex construction steps.

##### Durable Construction

Aluminum profiles offer excellent corrosion and deformation resistance, ensuring long-term performance stability and reliability.

##### Versatile Application

Suitable for residential spaces like living rooms, as well as commercial venues and office areas, meeting diverse lighting requirements.

### Product Specifications

Material	Black aluminum profile, gypsum board
Light Source	LED
Color	Black (aluminum profile), white (gypsum board, customizable)
Dimensions	Customizable length, width, and height (e.g., 1-meter aluminum channel)
Voltage	Low-voltage DC power ( $\leq 36V$ ) for safe operation
Color Temperature	Selectable options: 3000K warm light, 4000K neutral light, 6000K white light
Illumination Area	Determined by installation location and number of fixtures

### Installation & Maintenance

**Installation:** Ensure ceiling surface is flat and clean before installation. Follow product manual instructions for proper mounting. Verify secure electrical connections and stable fixture positioning.

**Maintenance:** Regularly clean lamp surfaces to prevent dust accumulation affecting light performance. Promptly replace or repair fixtures if damage or performance degradation occurs.

### Important Notes

Purchase from reputable brands and channels (such as YSENLIED) to ensure product quality and avoid counterfeit items

Always follow product manual instructions or professional guidance during installation

Observe electrical safety precautions during use to prevent electric shock hazards

This recessed black LED linear drywall ceiling light with corner aluminum profile slots represents a modern lighting solution that combines aesthetic appeal, practical functionality, and long-term durability. Proper selection and installation will create a comfortable, warm lighting environment for your home or commercial space.
