Product Description

Ultra-Thin Aluminum Alloy Recessed SMD Light

Ceiling aluminum profile with recessed slot designed for seamless integration and superior lighting performance.

Core Product Features

Premium Material: Constructed from high-quality 6063-T5 aviation aluminum for excellent heat dissipation and extended LED lifespan

Ultra-Thin Design: Slim profile measuring only 7.5mm to 10mm in height, ideal for space-constrained applications

Frameless Integration: Built-in wings allow for plaster concealment, creating seamless "see the light, not the lamp" aesthetics

Optical Excellence: High-transmittance PC diffuser ensures even light distribution and eliminates glare

Application Scenarios

Ceiling Design: Perfect for living room "double eyelid" linear lights and concealed suspended ceiling light troughs

Functional Lighting: Ideal for cabinet recesses, wardrobe shelf lighting, and baseboard decorative applications

Spatial Enhancement: Creates layered lighting effects that improve overall space perception and ambiance

Installation & Selection Guidelines

Light Source Compatibility: Recommended 24V low-voltage LED strips for stable brightness and minimal voltage drop

Color Quality: High CRI SMD light strips ensure accurate color rendering for premium residential environments

Groove Preparation: Ceiling groove width requirements: 15mm-25mm (model dependent) with precise depth matching

Installation Precision: Proper depth alignment ensures perfect flatness and professional finish
