

12V/24V Self-Adhesive LED Strip Light with 120 Beads for Cabinet Linear Lighting

Our Product Introduction

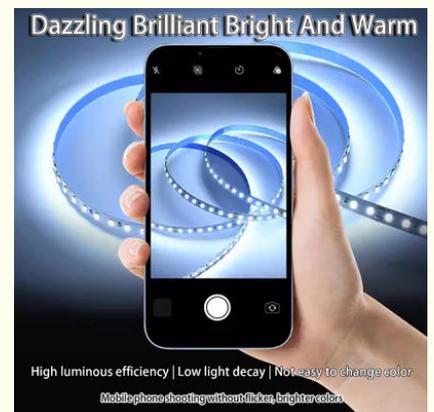

Basic Information

- Place of Origin: SHENZHEN CHINA
- Brand Name: YSENLED
- Certification: CE ROHS LVD EMS
- Model Number: YS-R60X2835RA-F3
- Minimum Order Quantity: 10
- Price: Negotiable
- Packaging Details: 10*1000*10
- Delivery Time: 2DAYS
- Payment Terms: L/C,D/A,D/P,T/T,Western Union
- Supply Ability: 100,000 meters per week

Product Specification

- Highlight: **120 Beads LED Strip Light, Self-Adhesive Linear Light, 12V/24V Soft Light Strip**

Product Description

12V/24V Soft Light LED Strip with 120 Beads per Meter

This flexible self-adhesive LED strip features 120 high-brightness LED beads per meter on a flexible FPC substrate, providing uniform linear lighting for cabinet, wardrobe, and interior lighting applications.

Product Features & Specifications

High-Density LED Array

120 LED beads per meter ensure uniform, full light emission without dark areas or graininess, delivering soft, non-glaring illumination.

Dual Voltage Operation

Compatible with both 12V standard voltage and 24V long-distance applications. The 24V option minimizes voltage drop for consistent brightness over extended runs.

Easy Self-Adhesive Installation

Strong adhesive backing allows for quick installation without drilling or grooving. Simply peel and stick for immediate use.

Technical Advantages

Flexible Design: FPC substrate allows free bending to adapt to various installation scenarios and complex locations

Stable Performance: Flicker-free light emission with consistent color temperature even after long-term use

Enhanced Safety: Low voltage operation generates less heat and provides safer operation for home and commercial use

Extended Lifespan: Stable performance characteristics ensure longer operational life

Indoor Use Scenarios

Application Scenarios

This versatile LED strip is ideal for various interior lighting applications including:

- Cabinet and wardrobe interior lighting
- Wine cabinet and display case illumination
- Shoe cabinet and bookcase lighting
- Concealed ambient lighting solutions
- Supplemental lighting for display and accent purposes

Installation Benefits

The flexible body easily fits into complex locations such as cabinet corners and shelf bottoms, enabling quick completion of both new installations and renovation projects while significantly reducing construction difficulty and costs.

Performance Characteristics

Feature	Specification
LED Density	120 beads per meter
Operating Voltage	12V / 24V DC
Substrate Material	Flexible FPC
Installation Method	Self-adhesive backing
Light Quality	Uniform, soft, non-glaring
