

## COB Flexible LED Strip 24V Low Voltage No Flicker Self-Adhesive for Living Room Lighting

Our Product Introduction

### Basic Information

- Place of Origin: SHENZHEN CHINA
- Brand Name: YSENLED
- Certification: CE ROHS LVD EMS
- Model Number: YS-BAPL028
- Minimum Order Quantity: 10
- Price: Negotiable
- Packaging Details: 10\*1000\*20
- Delivery Time: 48hours
- Payment Terms: L/C,D/A,D/P,T/T,Western Union
- Supply Ability: 100,000 meters per week

### Product Specification

- Highlight: **24V Low Voltage COB Flexible LED Strip, No Flicker LED Light Strip, Self-Adhesive Flexible Light Strip**

## Product Description

### COB Flexible LED Strip Light - 24V Low Voltage

Advanced COB flexible LED strip featuring 24V low-voltage safety, self-adhesive installation, and flicker-free uniform lighting. Perfect for living room ceilings, feature walls, and decorative lighting applications.

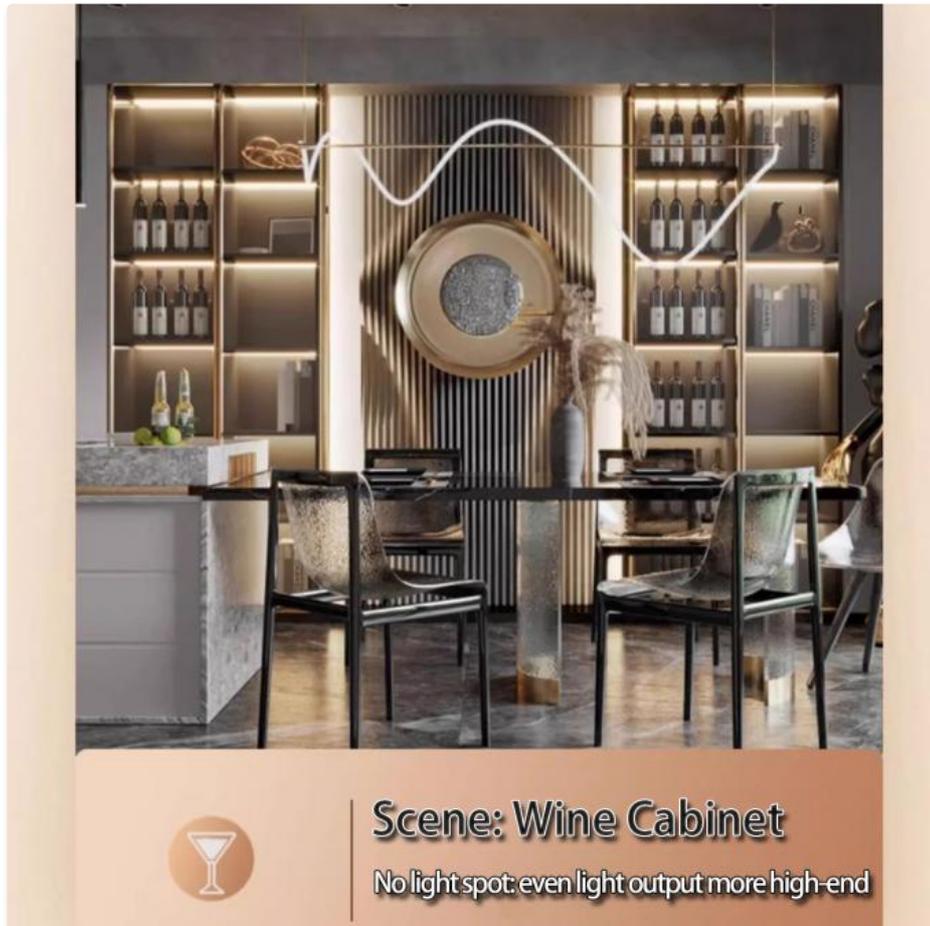

#### Product Overview

This innovative COB flexible LED strip utilizes next-generation integrated light source technology with safe 24V low-voltage operation. Equipped with high-strength self-adhesive backing, it delivers uniform, soft lighting without light spots, dark areas, or flicker. Flexible and bendable design enables easy installation in various living room applications.

#### Technical Specifications

Product Type	COB Flexible LED Strip
Power Supply	DC 24V Low-Voltage Safety
Light Source	COB Integrated Technology
Light Quality	No Dark Areas, No Light Spots, No Flicker
Installation	Self-Adhesive Backing
Board Type	High-Flexibility FPC Board
Environment	Dry Indoor Use (Living Room Only)

#### Key Features

**High-Quality COB Light Source:** Uniform light emission without graininess or spots for sophisticated lighting

**24V Low-Voltage Safety:** Low power consumption, no overheating, and electric shock protection

**Flicker-Free Eye Protection:** Consistent lighting that's comfortable for extended viewing

**Flexible Bendable Design:** Adapts to curved, corner, and irregular shapes

**Easy Self-Adhesive Installation:** No drilling or complex wiring required

**Sleek Concealed Design:** Slim profile integrates seamlessly into ceiling recesses

### Recommended Applications

- Living room ceiling recess and double-eyelid ceiling lighting
- TV background walls and sofa background wall ambient lighting
- Living room entryways, hallways, and baseboard concealed lighting
- TV cabinets, display cabinets, and wine cabinet auxiliary lighting
- Feature walls, decorative cabinets, and concealed lighting troughs

### Installation Guide

Clean installation surface thoroughly - ensure it's free of dust, oil, and moisture

Cut precisely at designated cutting points only - do not cut arbitrarily

Peel adhesive backing and smoothly attach to recess or installation location

Connect to dedicated 24V power supply, observing correct polarity

### Maintenance Guidelines

Gently wipe surface dust with dry, soft cloth to maintain cleanliness

Avoid direct water contact and prolonged exposure to humid environments

Prevent excessive bending or pulling to protect internal wiring

Periodically power on during extended storage to prolong lifespan

### Important Safety Notes

Use dedicated DC 24V power supply only - incompatible with 12V or 220V

Indoor dry environments only - not suitable for outdoor or bathroom use

Cut only at marked cutting points - arbitrary cutting causes damage

Ensure clean, flat surface before adhesion for proper bonding

Observe correct polarity when wiring - reverse connection prevents lighting

### Product Summary

This COB flexible LED strip combines safe low-voltage operation, flicker-free soft lighting, convenient self-adhesive installation, and premium luminous quality. It adapts perfectly to various living room lighting and decorative requirements, adding depth and sophistication while creating a warm, beautiful, and healthy living environment.
